Hello
I'm Emina Palamarevic

Email: minapala342@gmail.com

Portfolio: https://epalamarevic.github.io/Portfolio/portfolio.html

Objective

For the past four years I have improved my professional skills in the healthcare field working as a patients service representative. I have developed relationships with patients, provided clerical duties in office and made an interest to expand my learning within IT. Eleven Fifty Academy has taught me the basics of software development. My professional goal is to use my skills in software development and healthcare to improve access to our future healthcare system.

Education

February 2020 - August 2020
